The training guide for pharmacy assistants

# **Jungle Formula Dry Protect**

#### **Uses**

Specifically formulated for Europe and the UK. Repels all mosquito species, including the Tiger mosquito, and helps protect against ticks, horse flies, black flies, midges and other biting insects. Provides up to 7 hours protection.

## **Dosage**

3 years and over: apply carefully to all exposed clean and dry skin except eyes and lips. Hold the container about 15cm from the skin and spray with a slow sweeping motion for even application. For use on the face, spray into the palm of the hand before applying. Reapply as necessary depending on conditions as high temperature, humidity and other environmental factors can reduce the duration of protection.
